

Grammar Mastery - Day 3

17 original questions | Reading and Writing

Complete the questions before turning to the answer explanations. Mark any guess, even if it turns out to be correct. For math, show your setup and check the requested quantity. For reading, identify the exact supporting detail; for grammar, identify the clause or subject.

These questions were authored for this workbook from the lesson topics. They are not official SAT questions or copies of the course's paid practice.

Verb Questions | 10 questions

[Lesson video: Verb Questions](#)

- C) the tree
- D) the researchers’ favorite specimen’s bark

Answers & explanations

Count correct answers, but also review correct guesses. Redo missed questions after a day without looking at the solution.

1: B 2: C 3: B 4: B 5: C 6: B 7: A 8: C 9: A 10: B 11: A 12: C 13: B 14: C 15: B 16: A 17: C

Why each answer works

1. Answer: B. The singular head arrangement determines agreement. The plural objects in the of-phrase do not change the subject.

2. Answer: C. The subject follows the verb: several unusually tall reeds is plural. The location phrase is not the subject.

3. Answer: B. Each is singular, regardless of the plural devices in the prepositional phrase.

4. Answer: B. As well as two assistants does not form a compound subject joined by and. Investigator requires reviews.

5. Answer: C. Two people joined by and form a plural subject.

6. Answer: B. The camps were established before a specified event in the past. Past perfect expresses the earlier action.

7. Answer: A. Packed in a protective case is a passive participial modifier enclosed by commas. Remained is the main finite verb.

8. Answer: C. Growing the seedlings under constant light modifies botanists. Observed is the main finite predicate.

9. Answer: A. The coordinated infinitives share to: to classify, detect, and report. Match the parallel verb form.

10. Answer: B. The head series is singular. Collected during the storm modifies measurements.

11. Answer: A. The singular satellite takes possessive its. It's means it is.

12. Answer: C. The antecedent two lenses is plural, and a possessive is needed.

13. Answer: B. Three researchers form a plural possessive. Put the apostrophe after the plural s.

14. Answer: C. The shell belongs to one device: use the singular possessive device's.

15. Answer: B. The modifier describes the person examining the fossil. The scientist must be the subject that immediately follows.

16. Answer: A. The thing published was the novel. In A, the subject head is novel, despite the possessive author's.

17. Answer: C. The modifier describes the tree. The main clause also needs the tree as the entity protecting itself.

For each missed or guessed question, record the skill, the condition you overlooked, and one specific action for next time.
