

Reading Comprehension - Cumulative Test

25 bank questions | Suggested time: 35 minutes

This is a linked test booklet. Each question button opens the complete bank item, including its passage, equation, or diagram. The questions themselves are not reproduced inside this PDF. Record your responses below; use the bank's explanation after finishing.

Selection filter: SAT; medium and hard; Exclude active questions enabled when these items were selected on October 3, 2026. This filter protects practice-test questions. The website can change its classifications; recheck the exclusion filter before making any new selections.

Take the test

Open the numbered links in order. Do not open solutions while testing. Afterward, mark correct, incorrect, and guessed responses, and return to the matching lesson for errors. The time is a study target, not an official SAT module limit.

Skill map & review

Use this map only after the test. It identifies the topic for each item; it is not an answer key. The live bank provides the official response and explanation.

Write the exact claim or comparison. For graphs, identify the relevant groups, units, and time interval. Reject answers for one precise unsupported detail. For transitions, state the relationship between the clauses before choosing a word.
